Field Manual (FM) 3-07 is the Army's keystone doctrinal publication for stability operations. FM 3-07 presents overarching doctrinal guidance and direction for conducting stability operations, setting the foundation for developing other fundamentals and tactics, techniques, and procedures detailed in subordinate field manuals. It also provides operational guidance for commanders and trainers at all echelons and forms the foundation for Army Training System curricula. It describes the phasing paradigm that defines stability operations activities conducted before, during, and after combat operations. Finally, the chapter links the primary stability tasks with broader interagency stability sectors to provide the foundation for civil-military integration at the tactical level. Chapter 3 addresses the essential stability tasks that comprise military stability operations. It provides a detailed discussion of each...
