If your children love to get creative, they will enjoy this children s coloring book, and you will appreciate the educational aspect, too. In this coloring book, you can find the whole story of Terry Treetop and the Lost Egg so you and your children can enjoy the story as well as benefit from coloring advantages. Why is coloring so important? For many children, coloring is therapeutic. You can use coloring to help your children quot;ventquot; their feelings and frustrations, as well as other emotions through coloring. Children learn how to hold a pencil by first coloring with crayons. I think it s important for children to develop proper grip and control over a crayon to help them properly grip and control other writing instruments in the future. These basic coordination developing skills will last children a lifetime. Your children will have fun while developing motor skills at a very basic, simple level that they will expand on later in life. While completing a coloring page to the best of their ability and stay inside the lines at all costs, your children will develop concentration and focus skills. As they get older in school and have to complete math or spelling worksheets, they will be able to better focus without being bothered by the quot;buzzquot; around them in the classroom. In addition, this early exposure to boundaries in print will be a huge help when handwriting time comes around, and the child has to respect the boundaries of the preprinted handwriting lines on the paper.
